

THE NEWSLETTER
2020 Q1

Dear valued business partners,

We hope that the holidays has been enjoyable! A new year full of opportunities has begun and with that we thought it's in place to give you an update on the latest events here at Cross Textiles, introducing our very first quarterly newsletter. We are recognizing our responsibility as a denim manufacturer and as inhabitants on this only planet of ours. The importance of collaboration and transparency is clear on our joint path towards sustainability. Together we shall be quantifying our actions as we are working towards a brighter future.

Until we meet again, stay green, stay caring and stay sensible.

Truly Yours
Ismail Kolunsag

"Our labs and facilities embrace social responsibility at every turn."

As always, we look forward to welcoming you in our creative, eco-friendly facilities filled with state-of-the-art technology and social focus. Sealed with the prestigious **Nordic Swan Ecolabel**, they are built purely to make your ideas come to life.

Inspiration

Creativity is key and we aim to add new ideas to Your board! We humbly recommend to follow [@crosstextiles](#) to enjoy some denim inspiration in your feed on a regular basis! Speaking of inspiration, our collaboration partner Art Comes First just released their "Exhibition" collection celebrating 10 years of formal tailoring and rebel uniform.

Consistency through Technology

Laundry Automation System - The First Implementation in Denim Garment Industry

25% Decrease of reprocess

ZERO Accident due to chemical splash

99.9% Accuracy of chemical dosage

- Sustainable both Socially and Environmentally
- Full traceability in the washing facility progress
- Years of Experience ensures the Best Applications and Management Systems
- Securing Product Consistency in the wash process
- Industry 4.0 applications with PLM systems
- 99,9% accuracy through Digital Dosage Automation

NO MORE WASTE WITH "CRS-ZERO WASTE"

Since years we've been exploring alternatives to pumice stones (a fossil material) in collaboration with Technical Universities. We are proud to be working with the CRS-Zero Waste, a polymer based eco stone that can be used many hundred times before it's recycled.

It's a Life Cycle!

Climate change is real and we recognise our responsibility. In order to quantify our efforts within The Global Development Goals we are in the middle of our Life Cycle Assessment (LCA). We are building a roadmap towards change and in a longer perspective towards an infinite circle.

If you can dream it, we can help you to create it.

Red Cast Workshop

The very heart of Cross Textiles, our new R&D Center is built for creativity.
